Subject: Comments on Proposed Draft for Transmission, Distribution & Supply  
License Ref: 2011/002/CD-02

I think the customer would prefer the meaning and their understanding of the fuel charge should remain the same so therefore the rate paid for other sources of supply should not be included in it. So I suggest the following:

In PART VI: PRICE CONTROLS AND TARIFFS under 2. Tariff :  
Add a new item (vi) A rate paid for other sources of supply (including IPPs) than that listed in (v)

Adjust the Fuel Charge computation in Schedule 3 to reflect the above change.

Add a separate schedule (if necessary) to calculate the rate paid for other sources.

Thanks,  
Frazer Jones
