

## Proposed DOMLEC Tariff

Table 3: Proposed Tariff Design

	Domestic Standard	Domestic TOU	Small Business	Commercial	Hotel	Industrial	High Voltage	Street Lighting
<b>Applies to</b>	Domestic customers using 150 kWh or less per month (determined annually)	Domestic customers using more than 150 kWh per month (determined annually)	Non-Domestic customers using 500 kWh or less per month (determined annually)	Commercial customers using more than 500 kWh per month (determined annually)	Hotel customers using more than 500 kWh per month (determined annually)	Industrial customers using more than 500 kWh per month (determined annually)	Customers receiving power at high voltage	Street Lighting Accounts
<b>Customer Charge (\$/Month)</b>	\$5.00	\$5.00	\$5.00	\$50.00	\$50.00	\$50.00	\$50.00	\$0.00
<b>Block Energy Charges (\$/kWh)</b>								
First 50 kWh	\$0.5280							
kWh in Excess of 50	\$0.5870							
<b>Single kWh Rate (\$/kWh)</b>								
			\$0.6940					\$0.7019
<b>Time of Use Rates (\$/kWh)</b>								
<i>Peak Period</i>								
8am - 10pm (Weekdays)		\$0.6954		\$0.7101	\$0.6354	\$0.6503	\$0.6457	
6am - 10pm (Weekends)								
<i>Off-Peak Period</i>								
10pm - 8am (Weekdays)		\$0.6354		\$0.6501	\$0.5754	\$0.5903	\$0.5857	
10pm - 6am (Weekends)								
<b>Demand Charge (\$/kW)</b>								
				\$12.50	\$12.50	\$12.50	\$12.50	
For Customers with Maximum demand <= 50 kW: metered demand for the current								
<b>Reactive Power Surcharge</b>								
For customers with peak demand > 50 kVA a surcharge applies if the power factor								
<b>Fuel Charge</b>								
Fuel Cost 100% passed though the fuel charge to all customer groups with an equal \$/kWh charge								
<b>Purchased Power Charge</b>								
IPP related costs 100% passed though to all customer groups with an equal \$/kWh charge
