December 19th 2023

Mr. Justin Kase
Executive Director
Independent Regulatory Commission
Cork Street
ROSEAU

Dear Mr. Kase,

The Power Purchase Agreement between Dominica Electricity Services Limited and Dominica Geothermal Power Company 2023 Limited (PPA) which was approved by the Commission on December 1, 2023 refers.

Clause 2.2 (a) (iii) of the said agreement provides, as a Condition Precedent to the effectiveness of the PPA, that:

"the Purchaser shall have received an extension to its Utility License from the IRC for a term of not less than twenty-five (25) years from the Commercial Operation Date, or an approval for such extension that will be effective on the Commercial Operation Date"

The Commercial Operations Date is defined in the PPA as:

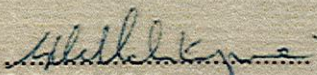

"the date determined in accordance with Clause 4.5(e), being the date on which the Purchaser notifies the Seller that the Commissioning Tests of the Power Plant and, generally, the Surface Facilities have been satisfactorily completed;"

In accordance with these provisions, DOMLEC hereby requests approval of an extension of its Generation Licence and its Transmission Distribution and Supply Licence for a term not less than twenty-five years from the Commercial Operation Date or such extension that will be effective on the Commercial Operation Date.

Submitted for your review and approval.

Please let us know if you have any queries or need any clarification.

Sincerely

S. Bertilia McKenzie
General Manager
